**Subject:** Ethylene Oxide (EtO) 9 OIG-listed facilities  
**Attachments:** EtO priority facilities top 10 4-22-19.xlsx

**Flag:** Follow up

Nia –As we discussed, please see what you can find out about the location of any potentially sensitive populations (schools, daycares, retirement homes, etc) around each of the facilities in the table . (at about 0.25, 0.50, 1, mile ranges). Thanks!

Latitude/Longitude for the facilities are attached

FYI - There are some maps in the EtO share drive folder under “maps” that we developed a while ago. Not sure if they’ll e helpful to you or not, but worth at least looking at to see what maps we already have.

H:\AR\1 - AR-PM\Air Toxics\Ethylene Oxide\maps

Facility Name	Location	Facility Type
BCP Ingredients	St. Gabriel, LA	Chemical plant
Taminco US (Eastman Corp.)	St. Gabriel, LA	Chemical plant
